

Script for MEMA taping

Monday, August 13, 3 p.m.

MUST NOT BE LONGER THAN :30

This is Governor Haley Barbour. I'm calling to test the state's new Emergency Telephone Notification system. This is only a test; no action is required on your part today. If a hurricane or other emergency threatens the Coast, this system will be used to communicate important information to help protect you and your family. Thank you for being part of this test.
